# MEGASTROKE

The CSE team feels proud in making continuous effort towards betterment of the department in achieving the best and it is clearly evident from the activities that have been conducted and presented in this newsletter.

**Dr. S.C Gupta,  
Chairperson**

It is a pleasure to head the department of CSE. The aim of the department is to provide high quality education along with training of the students with all the new advancements in the computer's field.

**Dr. Vikram Bali, HOD (CSE)**

## Editor's Desk

### —FROM FACULTY EDITORS—

The content in this newsletter is perfect blend of quality. It is an incredible platform for real, technical, managerial and social Insight, hence perfect to convert a raw student into successful one.

Madhau Gautam, CSE  
ASSISTANT PROFESSOR

Anooa Arya, CSE  
ASSISTANT PROFESSOR

Lipsa Ahuja, CSE  
ASSISTANT PROFESSOR

## Train your Brain

Train your Brain is an initiative by Department of Computer Science & Engineering to prepare the students for upcoming placement drives.

The first series of Train your Brain was an Aptitude and C test series. Nearly 200 students appeared for the exam. The exam was conducted to test the technical and logical skills of students.

This came out to be a wonderful experience for students in enhancing their reasoning and technical skills to make them industry ready. Test was set keeping in view to the industry requirements.

## Hackathon 2018

Apart from curriculum, the college also pays equal concern over the practical implementation of the theoretical concepts, and in the zeal and enthusiasm the college organized: **Smart India Hackathon 2018.**

It is another feather added in the cap of PIET. It was a national event conducted by Govt. of India where PIET was one of the Nodal Centre.

This initiative proved to be successful in promoting the new innovation and out of the box thinking of students. Our Honorable Prime Minister conducted a live interaction session to boost up the student's confidence level.

Students from different parts of India gathered under the roof of PIET to showcase their innovative skills and this continued for three days.

Our students also participated in the competition and visited Bangalore to showcase their talent.

## Alumni Speech

---

As a graduated engineer who successfully completed 4 years of education, I feel a huge sense of pride and achievement right now and I would like all of my fellow graduates to cast your minds back to day one of PIET's adventure. At this juncture of achieving a major milestone in our life, we raise our hearts with gratitude to God almighty for all his blessings for the past 4yrs.

We are grateful to the management of PIET's college for giving us the opportunity to find this success through the experiences we gained from here. We feel proud and honored for having studied in this prestigious college, which equipped us and trained us as a professional engineers.

The best part is I am still associated with the PIET Institute.

I am very thankful to each and everyone associated with the company and giving me the platform to explore my skills and knowledge.

I would like to thank our department for making efforts towards us. I would also like to thank all the people who have helped me.

M

Mansi (Batch 2013-17)
