Vision

Department of Computer Science and Engineering aspires to become a center of excellence for quality technical education by keeping pace with new technologies to create competent professionals.

Mission

M1: To develop professionals with analytical and technical competency for productive career in industry, academia and as entrepreneurs.

M2: To build theoretical and applied skills of faculty and student in computer science and engineering through need based training, research and development on industrially and socially relevant issues.

M3: Continuously improve and provide state-of-the-art laboratories to keep up with the new developments in the area of computer science and engineering.

M4: Create nurturing environment through competitive events, industry interactions, global collaborations and creating concern for lifelong learning.

Yogyata Round III

(Date: 13-Nov-2018)

GROUP DISCUSSION ROUND

This round was only for those students who cleared the 2nd Round.

Group discussions are a very important aspect of group communication. Discussions are a creative and dynamic activity which stimulates reflective thinking among the members.

Group discussions may be defined as an activity in which a small number of persons meet face to face and exchange and share ideas freely or attempt to reach a decision on a common issue. Group discussions are unstructured and less formal compared to meetings or conferences wherein specific roles are assigned to the participants. An individual's thought process is influenced by the views and opinions of the other members.

Yogyata Round IV

(Date: 16-NOV-2018)

PERSONAL INTERVIEW

Students after clearing the round III were presented in front of the panel for the personal interview.

In this round various questions were asked from the students to know their talent or what we call in Hindi (yogyata). After successful compilation of the result of this round three students were finally selected as winners.

The student winners are as follows:

Ajay Verma I st prize
Shubham Bloria 2nd prize
Shruti Garg 3 rd prize.

Webinar on Artificial Intelligence

On 15th Nov a Webinar is conducted by Ms. Anju Gandhi and Ms. Anshul in CSE Department covering all the emerging topics.ie Artificial Intlligence, IOT and Big Data.

Webinar provided an introduction to the technology, applications and issues in providing electrical power for mobile devices such as wearables / medical devices and remotely installed equipment for the Internet of Things. Users will be able to understand how power can be provided for the billions of devices that will be remotely connected to the Internet in the years ahead.

This webinar provided a view on some major technology challenges of the IoT, covers critical business and social issues that could hamper the large deployment of IoT systems within smart cities and provided examples related to the creation of a future city that leverages its cultural heritage and specific needs using Venice, Italy as the example.
