Talk on IPR

The main purpose of intellectual property law is to encourage the creation of a large variety of intellectual goods. To achieve this, the law gives people and businesses property rights to the information and intellectual goods they create – usually for a limited period of time. This gives economic incentive for their creation, because it allows people to profit from the information and intellectual goods they create and there is dire need to highlight the importance of such kind of topic.

Therefore, a discussion on IPR among various colleges has been conducted through ICT. Students gained a lot of knowledge and insight. This discussion continued for hours where PIET students have also participated and it is conducted on **10 Jan 2019**.

Republic day Celebration

The 70th Republic Day of our Nation was celebrated in a colorful and grand manner. Shri. Hari Om Tayal, Chairman and Chief Guest hoisted the National Flag and accepted the salute.

"All should understand their roles and responsibilities and act according to their responsibilities. He pointed out that the students should feel proud to be 'Indian' and being a citizen of the largest Democratic country, all should participate in voting which is fundamental right of every citizen.

Being in educated society, we should maintain discipline at all the places and all the time. By maintaining silence we never loss anything like pride instead we gain a lot of appreciation."
