

Event Details	
Title of the Event	Orientation Session & Project Expo On AI Based Projects Innovation Challenges “THE ET EXPO”
Date of the Event	8 th November,2022
Venue	G-404 (G-Block)
No. of Participants Enrolled	30
No. of Participants Attended	30
Resource Persons	Dr Anju Gandhi

Orientation Session & Project Expo on AI Based Projects Innovation Challenges “THE ET EXPO” was intended to introduce emerging research perspectives in the area of machine learning, pattern recognition and soft computing. Innovation Challenges served to be a great platform for student and researchers to upgrade their knowledge and skills. It also aimed to give participants a broader vision.

Outcomes:

- Enhance the student’s vision related to projects in field of emerging technologies through which students focused on practical implementation and learnt about emerging technologies.
- Helped the members to gain insight knowledge of Trends going in Computer Science.
